

Information Security Networks

Intelligent Business Management

For every \$1 invested in energy efficiency, asset value increases by an estimated \$3.

Energy used to be an expense; now it's an investment

Our Energy Efficiency Training provides concrete guidelines for establishing a plan, putting it into action and measuring results.

Energy conservation and sustainability initiatives require a baseline for consumption and ongoing monitoring to prove return on investment.

Join us at RCGA Office April 27th 2010 for half day training:

“Guidelines for Energy Management”

Energy Efficiency Training

Only \$245.00
